

**JOHN DEERE 4940**

**602602**

Serial No. 1N04940XHC0023131  
Engine No. RG6090G009456

**Price: \$ 220,000**  
**Price Including GST: \$ 242,000**

**Engine Hours: 4,431**

2012 Model, A/C Cab, 120' Boom, 4500L Tank, Stainless Steel Eductor, Autotrac Ready, Hydraulic Tread Adjust, Direct Injection, 2630 Screen, 50 CM Stainless Steel Line, High Flow Pump, Belly Shields, Mobile Weather Station, Boom Levelling, Xenon Lights, Fenders, Fence Row Nozzles.

**Front 480/80R X 50 Tyres New 100%**  
**Rear 480/80R X 50 Tyres New 100%**

**RECENT REPAIRS**

RO #	Date	Description	Hours	Cost
2236307	19/6/15	Jacked up RHS front and rear of machine. Removed wheels, disassembled planetary hubs. Found bearings to be worn and seals damaged. Cleaned components. Installed new bearings and hub seals. Assembled planetarys, tightening hub nut to spec. Filled hubs with oil. Installed wheels, tensioned wheel bolts to spec	2,507	\$ 8,701
2253963	25/11/15	Jacked up machine & removed damaged air bags. Installed new air bags. Test ran, all working correctly.	3,094	\$ 2,488
2259881	25/01/16	Travel to machine & carry Out 3000hr Service. Changed engine oil & filter. Replaced engine air cleaner elements. Replaced cab recirculation filter. Changed hydraulic oil & filters. Changed planetary hub oils. Replaced fan belt. degassed A/C, removed & replaced A/C compressor. Vac system. Fill system with gas. Replaced boom inner fold cylinder barrel pivot bushes & L/H side rod pivot bushes. Removed rear window, removed & replaced window seal. Replaced rear window.	3,344	\$ 8,358
2272936	24/05/16	Travelled to machine. Jacked up front end. Replaced both front suspension air bags. Installed seal kit to boom valve.	4,063	\$ 3,655
2276075	28/06/16	Removed heat shields. Removed each manifold. Cleaned manifold and head surfaces. Installed manifold, replacing gaskets, sleeves and bolts. Supply parts for service.	4,188	\$ 4,184

**REPAIRS**

Remove panels and cleaned machine. Welded up cracks in the boom. Repaired wiring for the boom track sensors. Replace LH rear air bag. Remove RH lift ram and check, found unserviceable. Fit new cylinder. Fit new batteries. Fit new step on front of machine. Remove and replace oversize signs. Replace LH rear tail light. Repair RH front indicator wiring. Tidy all hoses and wiring. Replace protective wrap on hoses and wiring. Replace direct injection plungers. Carry out 500hr service as per service sheet. Repair wiring and replace plugs to boom solenoids. Fit hypro cable. Clean out solution strainers and decontaminate main tank, solution tanks, all hoses and pipework. Remove and repair brackets for oversize signs. Remove all spray lines from boom. Remove all wiring and hydraulic hoses from boom. Dismantle the boom. Remove the boom sections and send to to engineer for repair. Once repaired boom returned reassembled and refitted to machine. Fit new pins and bushes in centre section. Reassembled boom sections. Assembled spray line, hydraulic hoses and electrical wiring onto boom. Repair wiring as required on boom. Replace sensors and switches as required. Calibrate boom. Decontaminate system test pump. Wee Waa Service Invoices 2319064, 2345008, Cost \$ 28,976.
